

# *Dig It! The Secrets of Soil*

## Major Sponsors

### **Nutrients for Life Foundation**

The Nutrients for Life Foundation is a not-for-profit foundation committed to educating the industry, media and the public on the

important contributions fertilizers make to society. Founded in 2004, the Foundation strives to educate teachers and students about the positive effects of fertilizer through its science curriculum, *Nourishing the Planet in the 21<sup>st</sup> Century*; provides tools for the industry to use in their communities; and works with researchers to explore the link between fertilizer and nutritious food. For more information, visit [www.nutrientsforlife.org](http://www.nutrientsforlife.org) or call (800) 962-9065.

### **Soil Science Society of America**

The Soil Science Society of America (SSSA) is a progressive, international scientific society based in Madison, Wis. One of its goals is

Soil Science Society of America

to improve public knowledge about soils. Founded in 1936, SSSA is the professional home for over 6,000 members dedicated to advancing the field of soil science. It fosters the transfer of knowledge and practices to sustain global soils, providing information about crop production, environmental quality, ecosystem sustainability, bioremediation, waste management, recycling and wise land use. For more information, visit [www.soils.org](http://www.soils.org) or call 608-273-8080.

### **The Fertilizer Institute**

The Fertilizer Institute's (TFI) mission is to promote and protect a sound fertilizer industry through legislative and regulatory

The Fertilizer Institute

Nourish, Replenish, Grow

activities; disseminate information to the fertilizer industry, agricultural community, government officials and the public on issues of interest to the industry; encourage a continuing competitive attitude within the industry; and foster a favorable public image of the fertilizer industry. For more information, visit [www.tfi.org](http://www.tfi.org) or call (202) 962-0492.
